### **Handwriting Activity**

Good handwriting contributes to reading fluency because it activates visual perception of letters. Handwriting is a predictor of success in other subjects, because good handwriting has a positive impact on grades.

This is because it involves more complex motor and cognitive skills. Good handwriting contributes to reading fluency because it activates visual perception of letters. Handwriting is a predictor of success in other subjects, because good handwriting has a positive impact on grades.

Knowing this important our school had organized Handwriting Activity on 25<sup>th</sup> June 2022.

## Parent-Teacher Meet

Academic year 2022-23 first Parent-Teacher Meet was held on 30<sup>th</sup> July in Fabtech Public School.

It was a great interaction between the teacher and the parents for the development of their children where they discussed both the strengths and areas of improvements. The progress report of Periodic test first shown to the parents and their suggestions were noted. Any sign of a child failing to make progress, regardless of where they are in the lower, middle or higher range is questioned and addressed.

The PTM came to an end with the conclusion that joint effort, mutual understanding and co-operation of parents and teachers is very important for the proper nourishment and progress of students.

## Exhibition and Seminar on “Nuclear Science & Technology” In association with BARC

On 1st July 2022 Fabtech Technical Campus organised an Exhibition and Seminar on “Nuclear Science and Technology” in association with Bhabha Atomic Research Centre, Mumbai. Whose chief guests were Dr.P.G. Saroj, Project Manager, Electron Beam Centre, BARC, Mumbai, Dr. Lalit Varashney Senior Prof.Homi Bhabha National Institute Electron Beam Centre, Mumbai, Dr. Ajay Deshmukh Director, Centre for Industrial Mathematics, Bhaskaracharya Pratishthana, Pune, Dr. R. K. Singh Former Scientist, BARC Mumbai and Dr. B. A. Randive Block Education Officer,Sangola. The main aim of the seminar was to remind us the importance of nuclear science and technology. They had various concepts for students. The major focus was on Nuclear Science and Technology that children could figure out what they want to do in future if they were to choose these career options.

The exhibition opened our eyes towards the fact that technology is making it a better place for us. They also made us aware of how sometimes the evolving technology can help those who worked really hard to earn their pay. The technology and manpower should walk along each other.

In that exhibition many projects were there from BARC Centre the students observed models of DC motor, solar system, self driving cars and image recognition devices, Plastic mould making machine, Hydraulic bridge. There were special activities and seminars so that everyone could try different things. The chief guest spoke at the end and made us aware about how they became scientists, what their stories were and how everyone else can too. All the scientists had visited our school and had conversation with our students and inspired us to do well in future.

## German Language Class

Multilingualism has been proven to help a child develop superior reading and writing skills, multilingual children have overall better analytical, social, and academic skills than their unilingual peers. An extensive study conducted by a linguist at Dalhousie University, showed that multilingual children had stronger cognitive skills that helped them attain on average better grades, attain higher levels of education and earn more money than their unilingual peers.

Children and people that learn and speak more languages develop an appreciation for other cultures and an innate acceptance of cultural differences. As a student multilingual individuals are more cosmopolitan and more willing and open to experiencing what other cultures have to offer. Career prospects are multiplied many times over for people who speak a greater number of languages as the world has become smaller and more interconnected. People and companies that are involved in international business look to hire people that speak a greater number of languages and will be able to relate to foreign clients and contacts.

They say that knowledge is power. Our school is unique in sangola in it is amongst the very few private schools that empower our children with the knowledge of multiple languages and the benefits that come with this skill. In association with Global Maharashtra: SOTF Initiative the long awaited German language class started in our school through online mode. Through which our students and teachers are going to learn German language. For this we are having Mr.Kedar Jadhav Sir as a trainer from Munich, Germany.

This classes are conducted twice in a week on Tuesday and Thursday in our school. Our students are very happy and enjoying every session of this class.

## Classroom Decoration Competition

A thoughtful physical arrangement of the classroom helps the students anticipate and participate in the activity and adjust their behavior in each area as well. A well-planned classroom has clearly defined boundaries designating where different types of activities will take place.

Not only the classroom decorations help to create a more engaging and welcoming atmosphere for your new students, they have other functions as ways of engaging students with other aspects of school life. Student-created displays of school policies are a great way to get children to remember the rules and concepts of subjects.

The school had organized Classroom Decoration Competition. All the class teachers along with their students had participated in this very enthusiastically and Mr. Mujawar sir class teacher of class V got first rank, Miss. Komal ma'am class teacher of class VIII got second rank, Miss Mrunal ma'am class teacher of class VII and Miss Noorjahan ma'am class teacher of class V got third rank.

### Ashadhi Ekadashi celebration

The shower of monsoon brings with its various religious festivals in a row and Ashadhi Ekadashi stands first in the row. The four months from Ashadh to Kartik are very important in Hindu religion.

It is said that children learn from their experiences and observations so in our school we celebrate various festivals to give them real life experiences. The very first festival of the year that we celebrated was “Ashadhi Ekadashi”. Our cute little kids right from Pre-primary to 10 standard Participated in this celebration. The children came to school dressed up as little warkaris carrying cymbals in their hands and wearing rosary around their neck. Girls wore a nine-yard sari and basil pot on their head. The school premises were full of these little warkaris. Older students carried a small attractive palkhi decorated with flowers and photos of Lord Vithal and Saint Dnyaneshwar with padukas in it followed by all little warkaris. Pre-primary children were told a story of famous devotee Pundalik, and were shown the video of real palkhi procession. Students chanted and sang bhajans of Saint Dnyaneshwar and Tukaram. Later all the participants gathered at the entrance of the school and made a big round which is called as “Ringan”. They all sang Lord Vithal’s aarti along with our school dignitaries - Mrs.Surekha Rupnar Ma’am, Mrs.Sarika Rupnar ma’am – CEO of Fabtech Public School & Jr. College, Sangola, and Mr.Sanjay Adate Sir Campus Director of FTC, Mr.Sikandar Patil Sir Principal of fabtech public school & Jr.College, Sangola.

The FPS premises was not as usual, but turned into a mini Pandharpur, on the day of Ashadhi Ekadashi celebration.

## Guru Purnima

Fabtech public School, said “Education is the most powerful weapon you can use to change the world.” The teacher imparts education hence the role of the teacher is of paramount importance both in the present and future of a student. To honor the teachers, a function was organized in the school on the occasion of Guru Purnima. The initiative for the arrangements of the function was taken by the Cultural department of our school. The function took place in the library.

The function began on a happy note with the students singing the Guru Vandana. Our students Pranita Mahrnur and Ajay Pawar gave an inspiring speech on Adi Guru Ved Vyas. This was followed by the prefects of the school seeking the blessings of all the teachers of the school by touching their feet.

## Elections

School elections are very much essential for the students. Because this kind of activities will mould leadership qualities in the students right from young age. Being part of school electoral process and getting elected as captain or vice captain gives immense pleasure and opportunity to learn many new things. That will help you to know where you stand, how capable you are in executing work, how commandable you are in maintaining discipline, how coordinative you are in understanding things patiently. It actually groom's you.

## Investiture ceremony

Fabtech Public School held its Investiture Ceremony for the Primary Wing on July 20, 2022. The newly elected office bearers were formally entrusted with responsibilities and positions for the session 2022-2023. It was a day imbued with a sense of pride, humility and leadership.

The Principal, Mr.Sikandar Patil Sir welcomed the Chief Guests and expressed their happiness at the fact that the school has invested trust in the children to create a path that will guide others to success. He added that the children have immense potential and can surprise us if given freedom and responsibility. The esteemed guest administered the oath. The Ceremony started with a Prayer, seeking the blessings of the Almighty.

The chief guests for this fuction were Hon. Bhausahab Rupnar sir [Chairman of fabtech education society], Hon.Captain Ravsaheb Salunkhe, Captain Keshav Lendve, Subedar Bhau Nimangre, Havaldar Nandkumar Chaugule, Warrant Officer Uttam Chaugule, Subedar Ashok Ingole, Havaldar Ramesh Vitekar. The chief guest addressed the students and they shared their experiences.

Highlighting that leadership is not about position but it's a way of living and leading one's life. Thereafter, the students presented a song –through which they dedicated their entire self to the Supreme Creator and expressed their gratitude for all the blessings bestowed upon them. The ceremony was hosted by our beloved Mr.Satish Devmare Sir and The Vote of Thanks was proposed by the Mrs.Swati Shinde Ma'am.

## **UPCOMING EVENTS**

### **Foundation course for class 5th to 10th**

Foundation course for Class 5th to 10th it is believed the earlier a student prepares, the better will be the performance. We all know, class 5th to 10th acts as the foundation years of a child's education, which play a decisive role in helping him to choose a suitable career path. Class 5th onwards new concepts of math's and science are introduced, which are new to us. Sometimes these concepts are easy to understand, whereas many a time we find it extremely difficult to understand them or understand the logic behind them. This is where Foundation course comes into play.

**Foundation course aims to make students competent enough to handle the future competitive entrance exams like IIT, JEE, MH-CET, NEET, AIIMS, NTSE, KVPY etc.**

### **Bag Less Saturday**

It is with utmost happiness and gratitude that we Fabtech Public School & Jr. College, Sangola launching 'Bag Less Saturday'. We declared that two Saturdays of every month will be observed as 'Bag Less Saturday', with the aim of providing a joyful learning experience for children with conducting various activities. And we are happy to have contributed to the conceptualisation of the initiative.

### **Advanced Robotics Laboratory**

To create a world where young people are encouraged to celebrate fun and excitement of science and technology, and inspire them to take science and technology based career paths to become tomorrow's much needed technology leaders.

Encourage, develop and implement exciting, mentor based programs that inculcate interest towards science and technology in the minds of young people, inspiring them to meet the challenges of the global, technology-driven society through innovation, collaboration, and creative problem solving.

We are glad to inform all the parents that our school is going to start the Robotics Laboratory as early as possible.

**Thank you**  
**as always, for being with us!**
